TESTIMONIALS

From a reader

"I read the Jewish Chronicle each month; it keeps me up to date on what's happening in my community. It's the only place to find lifecycle events and in-depth coverage of issues important to local Jews. I patronize Chronicle advertisers - without them, we wouldn't have this important resource."

— Michelle Wales, Fox Point

From our advertisers

"My organization has been advertising every month in the Wisconsin Jewish Chronicle since 2018. The consistency of this advertising has contributed to the high attendance to our events that are held twice monthly. We have other ways of promoting our organization, but I have measurable, positive results from the ads we run. The customer service we receive from the advertising department is top notch, so placing the ads is a piece of cake."

— L'Chaim Chaverut Clubhouse Northshore

"I've been in the healthcare field for over 20 years and advertised in many publications with little or no response. Our Chronicle ads have been very successful, reaching a fantastic new audience and having instant success. This is a must use advertising source!"

— Sherrie S., Senior Community

"We advertised with the Chronicle and definitely saw an increase in business."

— Linda G., Armstrong Paving

YOUR COLOR PALETTE

CMYK ONLY!

The press uses 4 ink colors: Cyan, Magenta, Yellow and Black. **Use CMYK colors only.**

INK COVERAGE 250% MAX

Keep the sum of your 4 ink percentages below 250%.

- Use 1-ink or 2-ink colors
- To darken a color by adding a 3rd ink, use a low % K.
- Newsprint is a pale gray/tan, not white. Plan accordingly.

USING BLACK

BODY-SIZED TEXT or LINES = **100%K only**

BACKGROUND under white text or lines = **100%K only**

BACKGROUND with no text, or with headline-sized text:
To avoid a washed out look, add a low percentage of other ink to the black. For example, 100K + 30C.

SWITCHING MEDIA?

When repurposing an ad that ran on glossy paper or appeared digitally, don't forget to modify your palette & check reverse text.

REVERSE TEXT: HANDLE WITH CARE

BEST PRACTICE:

Non-serif font.

Size— 9 pt minimum. Better 12 pt +

Weight— Demi, Semibold or heavier

Keep the Background Color SIMPLE:

- ONE color C, M or K between 50-100%
- TWO colors with one 100% and the other below 80%.

White text only for best results. If you must use color:

- Make it 20% or less • Share an ink between text and backer.
- For example, 15C text on a black made of 15C/100K.

DON'T DO IT!

Reverse text with thin or pointy serifs

Reverse text under 9pt.

Reverse text that is Light or Book weight, or less

Reverse text with serifs, fine detailing or texture

Reverse text on a saturated background (above 200%)

Reverse text on a 3- or 4-ink background

Reverse text that is a raster image (JPG, PNG, PSD)

TYPOGRAPHY LIMITS

BODY TEXT:

Size — 8 to 12 point for blocks of body text. This is the smallest print you will have on your ad.

COLORED TEXT:

12 pt and up. 12 pt text should be Bold or heavier. The larger the text, the lighter weight you can use.

TEXT ON COLOR:

Use the "Multiply" effect on text placed on a colored background, and/or share an ink color between the text and its background.
